DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6 January 2010 has been entered.

Response to Amendment

In response to the amendment filed 6 January 2010 and the Substitute Specification filed 14 April 2009, the following is placed in effect.

The rejection of claims 1 and 2 under 35 U.S.C. 102(b) as being clearly anticipated by Yamanaka et al (US 5,314,941), is hereby expressly withdrawn.

The rejection of claims 1 and 2 under 35 U.S.C. 102(b) as being clearly anticipated by Kushida et al (US 5,344,864), is hereby expressly withdrawn.

The rejection of claims 1 and 2 under 35 U.S.C. 102(b) as being clearly anticipated by Oshima et al (US 5,484,844), is hereby expressly withdrawn.

New grounds of rejection follow.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention.

There is no disclosure to support the recitation of "consist," to exclude other constituents. No example is provided that is so limiting, nor description that clearly indicates such limitation.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Obrecht et al (US 6,184,296).
Note column 1 (line 50) to column 3 (line 3) for the first rubber component and column 4 (lines 5-40) for the second component. The use of fillers is taught at column 4 (line 43)

to column 5 (line 20). The employment of antioxidants and plasticizers is disclosed at column 5 (lines 19-27). The compositional limitation is shown at column 1 (lines 37-46).

Response to Arguments

Applicant's arguments with respect to claims 1 and 2 have been considered but are moot in view of the new grounds of rejection.
